

# OUTDOOR LIGHTS @ NIGHT CAN CONFUSE

BATS, OWLS,  
MOths & SOME  
MIGRATING

BIRDS

&

FISH

LIGHTS CAN ALSO

CAUSE frogs & butterflies  
to emerge too early in  
the Spring. Many people  
have trouble getting  
enough sleep, too.

It's easy

TO REDUCE OUTDOOR  
LIGHTING & IT SAVES MONEY

Use a smaller bulb

and be sure all of the light is

focused downward where you need it

not into

the SKY

OR

MOTION SENSOR SO THAT

LIGHTS ONLY

CLAIM A FREE TIMER

OR MOTION SENSOR TODAY - A \$25 VALUE -

COURTESY OF THE STUDENTS

@ LOPEZ ELEMENTARY SCHOOL

just send an email with the subject line

"LIGHTS OUT"

to kwiaht@gmail.com

and tell us which power saving device

you would like for your

HOME OR BUSINESS.
